## SOLID BEARING BLOCK

- > Custom designed housing to fit multiple applications.
- > Recommended bearings to use in this housing include:
  - Solid bronze
  - Sintered bronze

Bronze bearings are favourable as they offer high load capability and better corrosion resistance.

Bearings can be both plain or flange type. Alternative bearing materials can also be used.

- > Can be designed to fit off the shelf bearings.
- > Housing machined from solid steel.
- > Housing dimensions as follow:

B O R E S I Z E	B A S E L E N G T H	BASE WIDTH	HOLE CENTRES	H O L E S I Z E	C E N T R E H E I G H T
20	100	35	70	9.5	22
